**To whomsoever it may concern**

Katragadda Divya Teja, from Anna University, has been offered an internship with Tinkerix Technologies Pvt. Ltd from Dec 2015 – May 2016.

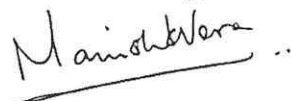

Tinkerix is planning to develop a mobile application called TalkMore . This is an Android app that helps prepaid mobile users in India manage their prepaid subscriptions. Users are recommended plans customized to their usage and they can buy these plans and have them be managed by the app. Recommendations are based on data analytics on the actual usage and result in significant savings on the users' monthly spends.

Tinkerix is a private limited company registered in Mumbai.

This is an unpaid internship. It is meant to satisfy the college curriculum at Anna University.

For any further questions, please feel free to contact me.

Yours sincerely,

Manish Vora  
CEO, Tinkerix Technologies Pvt. Ltd.

### TO WHOM IT MAY CONCERN

This is to certify that Mr. Divya Teja Katragadda worked as a Software Development intern from Dec 2015 to May 2016 with Tinkerix Technologies Pvt. Ltd for a period of 6 months.

Tinkerix Technologies leverages usage and other information on a smartphone to reduce telecom spending for users while significantly improving their experience. The co-founders (Rohit and I) are IIT Bombay Alumni with a vast experience in business and technology.

During his internship, Teja automated scraping and parsing of plans to run daily in a server hosted in AWS. He used parser generation techniques and heuristics to improve the parsing of USSD text messages received by our users. He changed the storage of plans from a file to a RDBMS (postgres). He also implemented the first version of an administration interface for all our backend data. All the work involved using Java.

Teja ramps up quickly and is very independent. He takes a broader perspective and tries to understand the business. An example is a study he did for us on tax benefits offered by the Startup-India program.

We wish Teja good luck in all his future endeavors. For any clarification, please feel free to reach out to me at [janaki@tinkerix.com](mailto:janaki@tinkerix.com).

Yours Sincerely,

*g. Jan R*

Janaki Ram Goteti

Director, Tinkerix Technologies Pvt. Ltd.
